

WHAT YOU NEED TO KNOW:

HARMFUL ALGAL BLOOMS

A unique opportunity to learn from and ask questions of an internationally recognized HAB expert from SUNY-ESF

Cayuga Community College Auditorium

November 6, 2017 at 7:30 p.m.

RSVP to info@partnersforhealthywatersheds

Dr. Greg Boyer will speak for 45 minutes followed by a 30-minute question and answer period. He will share his insight from 40 years of experience studying cyanobacteria, the organisms that generate harmful algal blooms.

Brought to you by @PartnersforHealthyWatersheds
