TCPi Updates

What You Need to Know About TcPi

With the conclusion of the SIM Cohort 3, we congratulate the PIC Place for qualifying for a \$40,000 grant to continue the ongoing integration and support of behavioral health services. Great job!

More exciting news – I've been drafted to participate in a Focus Group to evaluate lessons learned during the TcPi initiative. I am excited to be one of three practice facilitators selected and look forward to sharing what we've learned. The Focus Group will take place on June 4th in Denver.

The Bundled Payments for Care Improvement Cohort 2 (BCPI) is expected to go live on January 2, 2020. TcPi specialty practices are currently being invited to submit applications.

In other news, Western Healthcare Alliance member Quality Health Network's Community Resource Network (CRN) will be presented in a Learning Collaborative in July.

Final notes ... fourteen practices will complete TcPi by August 30th – way to go! In addition, many of the practice Value Propositions have been completed.

Please let me know if anyone has any questions or would like more information.
