Hello WHA members and friends!

June has arrived but the usual hot temperatures have not. The unpredictable weather we have been having lately reminds me of healthcare on a national level. For our members in Colorado and Utah, our weather may be a bit erratic, but our intention to collaborate and support the improvement and access of quality healthcare in our communities remains a constant. Thanks to you!

We recently had our quarterly WHA Board meeting and I was pleased to see so much engagement and discussion. Our WHA leaders are asking hard questions and committing to finding solutions. The next few months happen to be my favorite time of year because I get the opportunity to visit you in your facilities, hear about what's happening in your community, the issues that keep you up at night, and perhaps, more importantly, your solutions. Your WHA staff, Bill Raimer (CFO), Pilar Mank (Outreach Director), and Stephen Day (IT Director) will be on the road as well.

We look forward to seeing you, no matter what the weather brings.
