

SCM IDLANDS MESSAGE

The newsletter for the SC Midlands Chapter of ISACA

There is no “I” in Team, but there is a “U” in Volunteer!

We are currently in need of a volunteer to offer 30-60 minutes of their time to assist in cleaning/breaking down the room after event(s).

Our chapter offers discounts to events for volunteers as a thank you for the generosity with their time. If you're interested in volunteering, contact Leighton Johnson (president@scisaca.org) or Sue Rusher (certification@scisaca.org) for more information how you can get involved!

Upcoming Events

Stealing Your Life

**Joint Fraud Seminar
with Frank Abagnale**

Upcoming Chapter Events

[Frank Abagnale](#) is one of the world's most respected authorities on forgery, embezzlement, and secure documents. His riveting story provided the inspiration for Steven Spielberg's 2002 film, *Catch Me If You Can*, starring Leonardo DiCaprio as Abagnale and Tom Hanks as the FBI agent fast on his heels.

View the [Event Home Page](#) for more information.

When?

March 30, 2020
8:00am – 4:30pm

Archives	<u>List of Archived Webinars (Available for One Year)</u>

Interested in Becoming Certified?

Why certify? ISACA certifications are globally accepted and recognized, and they give you the credibility you need on your quest for career advancement. Certification proves to employers that you have what it takes to add value to their enterprise. In fact, recent independent studies have consistently rated ISACA's designations among the highest impactful certifications that an IT professional can earn. If you want to boost your earning potential as well as enhance your professional credibility and recognition, click on one of the pictures below to begin your path to certification.

GOODBYE, TROJAN. HELLO, STALKERWARE!

We've come a long way since Motorola rolled out the first cell phone weighing in at 4½ pounds in 1973, and a long way since the first 1G network broke ground in Japan in 1979. In today's society, you'd be hard pressed to find even children without their own cell phone. Today's devices are capable of so much more than merely making phone calls; they are, by all intents and purposes, handheld operating systems. And there's nothing more enticing to hackers than uneducated users. This [article](#) from the Info Security Magazine breaks down the numbers on mobile device threats with Stalkerware coming out on top of the threat list.

Techno Security & Digital Forensics Conference

Techno Security &
Digital Forensics
Conference

Myrtle Beach, SC

May 31 - June 3, 2020

Marriott Resort at Grande Dunes
