Anaerobic Digesters - Renewable Bio-Gas Symposium

Monday, October 23rd, 2017
National Grid Auditorium
300 Erie Boulevard West, Syracuse, NY
9:00am to 4:00pm

[REGISTER](#) | [PROGRAM](#)

Join us as we explore opportunities and barriers to the utilization of renewable bio-gas in New York State, with particular emphasis on digester technology and its use in the State's agricultural sector.

The symposium will be led by the Advanced Energy Center at Stony Brook and hosted by the Syracuse Center of Excellence in Environment and Energy Systems (SyracuseCoE), as well as Cornell University PRO-DAIRY, Stony Brook University, Syracuse University, National Grid and Sustainable Dairy Technologies.

Presentations have been invited by New York State leaders, including the New York State Public Service Commission, New York State Department of Agriculture and Markets, NYSERDA, Empire State Development, and the Department of Environmental Conservation, as well as industry and university leaders in the field.

Visit syracusecoe.syr.edu/event/digesters-symposium for more info and to register.
