

Cancer Conversations: Cardio-Oncology

Tuesday 24 November, 2020

6pm – 7.30pm

A/Prof Eng-Siew Koh

Associate Professor Eng-Siew Koh is a Senior Staff Specialist in Radiation Oncology at Liverpool Hospital, NSW and a Conjoint Associate Professor at the University of New South Wales with over 17 years' experience as a clinician researcher. She has sub-specialty interests in neuro-oncology, breast, lung, and haematological cancers.

Her current major research directions include all aspects of neuro-oncology research and secondly - cancer survivorship research including novel models of care and late effects of cancer therapies with a focus on cardio-oncology and the effects of chemotherapy and radiation on cardiovascular function.

Since 2015, she has received research support of \$16.6 million (CI involvement) in competitive funding, including \$14.5 million in brain tumour-related projects and \$2.1 million in cancer survivorship research including the \$2 million funded ACRF OASIS Survivorship research collaborative.

Associate Professor Koh has 40 peer-reviewed publications and holds several national leadership roles in neuro-oncology, being the Chair-Elect of the Cooperative Trials Group for Neuro-Oncology (COGNO), Deputy Chair of COGNO (2017-2020, Chair of the Clinical Oncology Society of Australia-Neuro-oncology (2011 to current). She has been a COSA Survivorship Conference Committee member for 2019 and 2021 and will be a Session speaker and Chairing at the COSA ASM 2020 with a specific focus on cardio-oncology.
