The newsletter for the SC Midlands Chapter of ISACA

ITCA—
Information
Technology
Certified
Associate

The next best thing to real-world IT experience, this new certification provides a blend of knowledge and performance-based components that serve to validate that you're ready to go to work on day one of the job. Five knowledge and performance-based certificates stack up to one career-advancing certification that's ideal for beginners and those looking to demonstrate fundamental understanding of essential areas of IT.

| April 15, 2021 10:30AM (EST) | 13 WAYS TO BREAK A FIREWALL - What you don't know will hurt you... |

Let's Get Certified!

Why certify? ISACA certifications are globally accepted and recognized, and they give you the credibility you need on your quest for career advancement. Certification proves to employers that you have what it takes to add value to their enterprise. In fact, recent independent studies have consistently rated ISACA's designations among the highest impactful certifications that an IT professional can earn. If you want to boost your earning potential as well as enhance your professional credibility and recognition, click on one of the pictures below to begin your path to certification.

Click on an image above for the **CISA**, **CRISC**, **CISM**, **CGEIT**, or **CDPSE** certification exam and you can now choose to schedule and take your exam from the comfort and safety of your home, or anywhere, at a date and time that is convenient! If your testing center remains open, you are welcome to take your exam in person if you prefer. Either way, there is no additional cost to take your exam online.
